LOCATIONS The map below shows the approximate location of the three key arrival and departure points. In more detail:

a) **Limehouse**. See map at http://tinyurl.com/SG-lime . Nearest public transport is Limehouse DLR. Make your way along Narrow Street (if you end up going downhill into the Rotherhithe tunnel, think again) until you find the lock. Looking inland from the lock, the narrow boats will be moored (half a dozen abreast) on the wall on the *right* – see the arrow on the map.

b) **Brentford**. See map at http://tinyurl.com/sg-brent. Nearest transport is Brentford (trains from Waterloo etc), and Gunnersbury (district and Overground). We will be mooring by the arrow, just to the north of Brentford locks, on the west bank, and just north of the A315. Standing on the main road, you can see the lock: walk past it on the left side. Please note that there are two locks in Brentford, do **not** go to Thames lock (which is marked on the map, and is further to the east, and controls access to the tideway)

c) **West India.** See map at http://tinyurl.com/sg-WID . Nearest transport is Heron Quays on the DLR. Walk south to the main part of the docks, then cross the footbridge marked, to the east of the DLR bridge. At least, I think this is where we will be!

BRENTFORD

11.9 nm above London Bridge

LIMEHOUSE

2.1 nm below London Bridge

WEST INDIA

5.4 nm below London Bridge

MARGARET NESS

9.9 nm below London Bridge
